SPECIFICATION

Collection	Graphite (6 fabrics)
Composition	100% polyester (cationic)
Thickness	0.45 mm ±5%
Weight	175 g/m² ±35%
Openness factor	1% / 3% / 5% / 10%
Surface	Easy-clean treated
Recyclability	100% recyclable
Warranty	10 years

THE TECHNOLOGY

A reflective solar-control screen: it returns solar radiation at the opening before it turns to heat, so the glass stays cooler and the A/C works less — without blacking out the view. UV is filtered and glare controlled. An easy-clean treatment is carried across the whole ReFlex line.

OPENNESS & LIGHT

1%	● ● ● ● ●	Maximum control
3%	● ● ● ● ●	Balance
5%	● ● ● ● ●	Open view
10%	● ● ● ● ●	Maximum transparency
